•	Application No.	Applicant(s)
Notice of Allowability	10/074,182	HAMMEL ET AL.
Notice of Allowability	Examiner	Art Unit
	Carol S. Tsai	2857
The MAILING DATE of this communication appears on the cover sheet with the correspondence address All claims being allowable, PROSECUTION ON THE MERITS IS (OR REMAINS) CLOSED in this application. If not included herewith (or previously mailed), a Notice of Allowance (PTOL-85) or other appropriate communication will be mailed in due course. THIS NOTICE OF ALLOWABILITY IS NOT A GRANT OF PATENT RIGHTS. This application is subject to withdrawal from issue at the initiative of the Office or upon petition by the applicant. See 37 CFR 1.313 and MPEP 1308.		
1. This communication is responsive to 2/28/2005.		
2. The allowed claim(s) is/are 1-3, 6, and 7, now renumbered as 1-5.		
3. The drawings filed on 28 February 2005 are accepted by the Examiner.		
 4.		
Identifying indicia such as the application number (see 37 CFR 1.84(c)) should be written on the drawings in the front (not the back) of each sheet. Replacement sheet(s) should be labeled as such in the header according to 37 CFR 1.121(d). 7. DEPOSIT OF and/or INFORMATION about the deposit of BIOLOGICAL MATERIAL must be submitted. Note the		
attached Examiner's comment regarding REQUIREMENT FOR THE DEPOSIT OF BIOLOGICAL MATERIAL.		
	•	
Attachment(s) 1. Notice of References Cited (PTO-892) 2. Notice of Draftperson's Patent Drawing Review (PTO-948) 3. Information Disclosure Statements (PTO-1449 or PTO/SB/0 Paper No./Mail Date 4. Examiner's Comment Regarding Requirement for Deposit of Biological Material	6. Interview Summary Paper No./Mail Da 08), 7. Examiner's Amenda	te

DETAILED ACTION

Allowable Subject Matter

- 1. Claims 1-3, 6, and 7 are allowed.
- 2. The following is an examiner's statement of reasons for allowance:
- U. S. Patent No.5,079,496 to Pierret et al. is the reference closest to the claimed invention. Pierret et al. disclose a method for detecting a signal comprising: measuring the signal at a predefined sampling rate to provide measured values; storing the measured values in a buffer memory; and forming a median value of the stored measured values in a time-slot pattern slower than the sampling rate to obtain an averaged signal value. However, Pierret et al. do not teach a method for detecting and reducing noise in a battery voltage signal comprising: measuring the battery voltage signal at a predefined sampling rate to provide measured values; storing the measured values in a buffer memory; checking whether a number of the measured values stored in the buffer memory has reached a threshold value; forming a median value of the stored measured values in a time-slot pattern slower than the sampling rate if the number of values stored in the buffer memory has reached the threshold value; and compensating for noise in the measured values using the median value; and including all of the other limitations in the respective independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Application/Control Number: 10/074,182

Art Unit: 2857

Contact Information

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Carol S. W. Tsai whose telephone number is (571) 272-2224. The examiner can normally be reached on Monday-Friday from 8:30 AM to 5:00 PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Marc S. Hoff can be reached on (571) 272-2216. The fax number for TC 2800 is (703) 872-9306. Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the TC 2800 receptionist whose telephone number is (571) 272-1585 or (571) 272-2800.

In order to reduce pendency and avoid potential delays, Group 2800 is encouraging FAXing of responses to Office actions directly into the Group at (703) 872-9306. This practice may be used for filing papers not requiring a fee. It may also be used for filing papers which require a fee by applicants who authorize charges to a PTO deposit account. Please identify the examiner and art unit at the top of your cover sheet. Papers submitted via FAX into Group 2800 will be promptly forwarded to the examiner.
